

HELPING SOLVE GLOBAL HEALTHCARE CHALLENGES

The worldwide healthcare industry strives for improved quality of care at lower costs, but hurdles exist along the way.

Israel has strong abilities in information and communication technologies, mobile and cyber technologies which are the basis for digital health evolution, alongside with strong academic background in life science and medical.

DID YOU KNOW...

1

Israel has brought this innovation to healthcare.

100% of Israeli physicians use advanced electronic medical records (EMR)

compared to only 52% of office-based U.S. physicians.

Decades of full life-span EMR-based data **on over 6.5 million people**

20+ years of implementing health information technology

2

Fueled by advanced healthcare IT, Israel offers better care at a lower price.

DID YOU KNOW...

3

Steady growth in the number of digital health companies

4

Israel is home to dynamic, growing digital health companies of varying sizes and sectors.

Over 300 Digital Health Start-Ups in Israel

Success stories of Israeli innovators

dbMotion, acquired by Allscripts for \$235 million, integrates patient information from disparate healthcare technologies and delivers it to clinicians at the point of care.

Clalit provides daily care to 4 million members (30% of the population) based on predictive modeling through its EMR and IT systems. Clalit Research Institute was named by WHO as the best practice for Europe in EMR data based care.

eWaveMD serves 30 million patients worldwide, offering strategic web-based solutions in the health care industry

\$65 million funding –raised for continuous patient monitoring solutions.

5

Israel is home to the R&D centers (engaged in Digital Health) of prominent international companies.
