MAIN CATEGORIES

Data protection, encryption and recovery, Cloud Security, Identity Management and Fraud, WEB and application security, Risk and Compliance (GRC), Training and consultant, Forensic and Analytics, Digital Intelligence

COMPANY PROFILE

As the global leader in the digital intelligence market with a passion for technology innovation and keeping communities safe, Cellebrite provides law enforcement, military and intelligence, and enterprise customers with the most complete, industry-proven range of solutions that encompass digital forensics, triage, and analytics.

Our products, training, and services support the entire investigative team – from forensic examiners and analysts in the lab to investigators and first responders in the field, to the prosecutors building strong defensible cases, and agency management optimizing investigative resources.

www.comsec.co.il

MAIN CATEGORIES

Data protection, encryption and recovery, Cloud Security, Mobile and IOT, Incident management - SIEM /SOC, WEB and application security, Risk and Compliance (GRC), Training and consultant, Secure ICS and OT, Perimeter, APT Security and End point protection, Forensic and Analytics

COMPANY PROFILE

Comsec Group, founded in 1987, is a pioneering market leader, providing all-inclusive Cyber and Information Security services to clients around the globe. Our mission is to serve our clients as trusted advisors, by securing their information and operational assets, ensuring the achievement of their business goals.

We act as trusted advisor to clients operating in a wide range of industries including, global financial institutions, e-commerce, Oil and Gas, government agencies, technology, communication and the healthcare sector.

Cyber Observer

www.cyber-observer.com

MAIN CATEGORIES

IData protection, encryption and recovery, Cloud Security, Intelligence, Mobile and IOT, Incident management - SIEM /SOC, Identity Management and Fraud, WEB and application security, Risk and Compliance (GRC), Training and consultant, Secure ICS and OT, Perimeter, APT Security and End point protection, Forensic and Analytics, SOAR

COMPANY PROFILE

Cyber Observer is a high-level orchestration & awareness management solution that clears complexity, powers planning & decision-making and provides proactive coverage by querying tools directly (southbound integration) based on thousands of critical security controls (in-house policies) to provide configuration analysis measured against all security domains of an enterprise IT infrastructure.

<https://www.cyberbit.com/>

MAIN CATEGORIES

Incident management - SIEM /SOC, Training and consultant, Secure ICS and OT, Perimeter, APT Security and End point protection, Forensic and Analytics

COMPANY PROFILE

Created to protect the most high-risk organizations in the world, Cyberbit secures enterprises and critical infrastructure against advanced cyberthreats. The company's battle-hardened cybersecurity solutions detect, analyze and respond to the most advanced, complex and targeted threats across IT and OT (operational technology) networks. Cyberbit employs a diverse team from both the public and private sector, including researchers, mathematicians, former CISOs and SOC managers, as well as seasoned veterans of the intelligence and military communities. With offices in Texas, Singapore, Munich and Israel, and presence worldwide, Cyberbit is a subsidiary of Elbit Systems Ltd. (NASDAQ: ESLT and TASE: ESLT).

MAIN CATEGORIES

Data protection, encryption and recovery, Cloud Security, Mobile and IOT, Incident management - SIEM /SOC, Risk and Compliance (GRC), Secure ICS and OT, Perimeter, APT Security and End point protection

COMPANY PROFILE

We are surrounded by billions of connected devices.

The desire to have a modern, innovative work environment has brought these devices into organizations, and connected them to their networks.

They are the weakest link in the cyber-security chain.

This is where Cy-oT comes in, providing an integrated security solution by:

- Providing full visibility of all connected devices
- Leveraging data science to ensure accurate detection of malicious activities
- Mitigating threats and neutralizing malicious activity in real-time

Deep Instinct

<https://www.deepinstinct.com/>

MAIN CATEGORIES

Mobile and IOT, Perimeter, APT Security and End point protection

COMPANY PROFILE

Deep Instinct™ is the first company to apply deep learning to cyber-security and the only company providing one unified platform for endpoint protection (EPP), mobile and remediation capabilities cross operations systems (windows, android, iOS, macOS, Linux). Deep Instinct's deep learning-based offering can detect and prevent malicious behavior, along with known and unknown malware, across multiple vectors, and provides true adaptive defenses against the most advanced cyberattacks. As a result, threats are eliminated in real-time with fully-automated and integrated response capabilities.

MAIN CATEGORIES

Data protection, encryption and recovery, Cloud Security, Intelligence, Mobile and IOT, Incident management - SIEM /SOC

COMPANY PROFILE

ELTA Systems Ltd., a group and subsidiary of Israel Aerospace Industries, is one of Israel's leading defense electronics companies and a global leader in the field of Intelligence, Surveillance, Target Acquisition and Reconnaissance (ISTAR), Early Warning and Control, Homeland Security (HLS), Cyber Security and Intelligence. ELTA offers comprehensive solutions, primarily based on in-house developed advanced electromagnetic. As the Original Equipment Manufacturer of these sensors, ELTA's integrated products and systems can be tailored to the specific requirements of end users.

<https://www.siemplify.co/>

MAIN CATEGORIES

Incident management - SIEM /SOC

COMPANY PROFILE

Enterprise Security Orchestration and Incident Response

Siemplify's ThreatNexus is a security orchestration and incident response platform purpose built for the security team to navigate the full spectrum of day-to-day operations from management to automation to investigation – all from a single pane of glass.

Skybox Security

<https://www.skyboxsecurity.com/>

MAIN CATEGORIES

Cloud Security, Intelligence, Mobile and IOT, Incident management - SIEM /SOC, WEB and application security, Risk and Compliance (GRC), Training and consultant, Secure ICS and OT, Forensic and Analytics

COMPANY PROFILE

Skybox gives security leaders the cybersecurity management solutions they need to eliminate attack vectors and safeguard business data and services every day. With unparalleled visibility and context-aware intelligence of the attack surface, Skybox solutions drive effective vulnerability and threat management, firewall management and continuous compliance monitoring.

Established in 2002, Skybox is a privately held company with worldwide sales and support teams serving an international customer base of Global 2000 enterprises and government agencies.

www.votiro.com

MAIN CATEGORIES

Perimeter, APT Security and End point protection, Email Protection

COMPANY PROFILE

Votiro is an award-winning cybersecurity company specialized in neutralizing zero-day and undisclosed targeted content attacks. Our next-generation patented CDR technology disarms threats that other products fail to expose, leaving our customers with a secure, fully usable data flow across all channels of incoming files. With over 500 customers worldwide, Votiro has offices in Israel, US, Australia, and Singapore. Votiro is a Gartner Cool Vendor award winner, and certified by the international standard of Common Criteria for Information Technology Security Evaluation (ISO/IEC 15408).

WhiteSource

WhiteSourceSoftware.com

MAIN CATEGORIES

Cloud Security, WEB and application security, Risk and Compliance (GRC)

COMPANY PROFILE

WhiteSource secures and manages the open source components in your software.

It automates the entire process of open source components selection, approval, and management, including finding and fixing vulnerable open source components.

It identifies all open source components in your repositories, build tools and CI servers to alert in real-time on vulnerable and problematic components, enforces policies automatically, provides remediation suggestions and generates comprehensive inventory, license, risk and more reports in one click."

www.xmcyber.com

MAIN CATEGORIES

Breach and Attack Simulation & Remediation

COMPANY PROFILE

XM Cyber is the only solution that identifies all attack vectors, otherwise undetectable, and prioritizes remediation. The only way to prevent an attack is to understand in advance the attack vectors hackers will take advantage of, and remediate security holes as soon as they are created and before they are utilized. XM Cyber provides a fully automated hacking machine, simulating continuously cyber criminals' techniques. The solution empowers organizations with a clear understanding, at any given time, of how hackers will compromise their critical assets and a remediation plan. The solution is fully designed to work safely in an organization's network.

ISRAEL EXPORT INSTITUTE

The Israel Export & International Cooperation Institute's (IEICI) Cyber Security Unit represents more than 300 Israeli companies in the cyber security field, and works to maximize the effectiveness of their business engagements with foreign counterparts, as well as in foreign markets. The unit exposes Israeli capabilities and innovative cyber security solutions to potential foreign clients and partners, either as stand-alone solutions or as an overarching tailor-made suite of solutions, accommodating their specific short and long term needs. To that end, the unit, which plays a key role in the Israeli ecosystem and is well-acquainted with the needs of the local cyber industry, holds the most comprehensive and up-to-date database of Israeli-based cyber security companies.

The unit is a joint venture of IEICI and its major governmental partners, the Foreign Administration at the Ministry of Economy and Industry and the Israel National Cyber Directorate in the Prime Minister's Office, leveraging their expertise and national assets in order to achieve the unit's and the industry's objectives.

Ministry of Economy and Industry
State of Israel

Israel's Foreign Trade Administration at the Ministry of Economy and Industry, is the government organ responsible for navigating and managing Israel's international trade policy through its 45 economic missions located at the country's prime trade destinations. These economic missions are dedicated for promoting economic integration, to encourage investment opportunities and help support Israeli companies go to global markets.

The Israel National Cyber Directorate in the Prime Minister's Office, devises a national cyber defense policy, promotes its implementation, and provides recommendation on cyber-related matters. The National Cyber Directorate strives to advance the State of Israel's leading posture as a global powerhouse for cyber security-related research and development, by investing dedicated resources in the Israeli academy, human capital, and the cyber security industry. It enhances the cooperation and synergy between the private sector, the government and international partners, in order to create a unique and dominant cyber security ecosystem in Israel.
