CURRENT MOBILE WEB SOLUTIONS HAVE WEEK PERFORMANCE FOR SEVERAL REASONS

- Slow loading time.
- Old technologies.
- Difficult navigation, similar to web, not to mobile.
- Non mobile optimized images and data.

It's important to remember:

41%
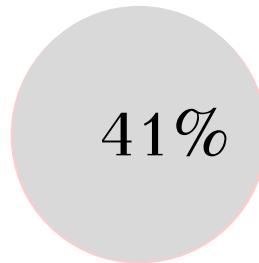

Switch to a competitor's site after bad mobile experience

30%
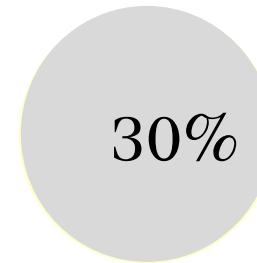

Of mobile users abandon site if the site is not optimized

57%
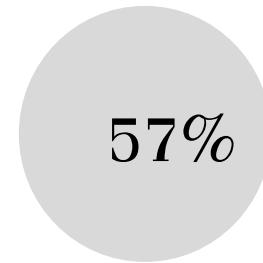

Will not recommend a business with no mobile site

JustDomobi

- Separate development for every platform.

- People install a limited number of applications, and use only about 7-10.

- People tend to remember only apps in their home page and the space there is limited.

- It's to direct web campaigns to apps.

JustDomobi

OUR SOLUTION COMBINES THE BEST OF BOTH WORLDS:

- Super fast first loading.
- Intuitive navigation.
- Advanced search capabilities.
- No need to download or install anything.
- Automatic update for products and prices.

JustDomobi

THE RESULT

- Time on site is 70% higher then parallel web site.
- Number of pages viewed is double then parallel web site.
- Abandon rate is 70% lower then parallel web site.
