

# IT Operations Analytics for Outage Prevention

Proactive detection of misconfigurations  
and single-points-of-failure across all IT  
infrastructure layers

Continuity Software's award-winning solutions enable IT teams to proactively identify and eliminate single-points-of-failure across the entire IT infrastructure — including High Availability, Cloud, and Disaster Recovery (DR) environments.

## Prevent Outages Before they Impact the Business

With the help of AvailabilityGuard's predictive IT Operations Analytics, our customers are able to pinpoint potential failures before they impact the business — delivering the highest levels of IT service availability while improving operational efficiency.

## Empower IT Infrastructure Teams to Ensure Resilience & Uptime

Using a predictive risk-detection engine, AvailabilityGuard verifies infrastructure resilience on a daily basis. It can automatically identify over 5,000 cross-vendor misconfigurations across all IT layers that may lead to outages, alerting the appropriate IT teams to take action and arming them with the suggested resolution.

Early detection of  
availability risks and  
single-points-of-failure

Automated, cross-layer  
configuration validation

Actionable alerts to  
relevant teams

Easy measurement and  
visualization of resiliency  
metrics

## Predictive IT Analytics = Operational Excellence

**Eliminate**  
infrastructure outages

**Guarantee**  
operational stability

**Measure & ensure**  
configuration quality

**Achieve**  
operational excellence

## About Us

Continuity Software is the leading provider of IT Operations Analytics solutions for infrastructure outage prevention.

Founded in 2005 by a team of IT infrastructure and data protection experts, the company is focused on a single mission – helping the world's leading organizations prevent unplanned IT outages.

Today, AvailabilityGuard is trusted by many of the largest and most successful enterprises around the globe, ensuring that service availability, data protection, and business continuity goals are met or exceeded 365 days a year.
