

The 1st International Summit on
Food from the Sea & the Desert

OCT. 18 - 20, 2022

Herods Boutique, Eilat, Israel

3 days featuring innovations in sustainable aquaculture and arid area food production systems.

Bringing together international experts for inspirational lectures, exhibitions, posters & professional tours. Addressing challenges to global sustainable and integrated aquaculture and desert agriculture and presenting promising solutions and cutting-edge technology platforms. Offering solutions to the ever growing demand for sea food, while reducing fishing pressure on oceans worldwide and increasing production in marine and desert environment.

The event assembles all stakeholders of this critical ecosystem in one venue.

It offers an opportunity to learn about the latest research progress of Israeli and global academy, experienced companies in the industry as well as emerging new companies, innovative start-ups, investors, entrepreneurs, and government representatives.

Exciting partnerships expanding across borders with representatives from 10 countries in the region and the world.

Join to network and to exchange knowledge.

The event will include:
