OUR FARM

The farm location and our growth method allow us to give the alga the best conditions to thrive. Our innovative production process enables the raw material to be directly applicable in product development in the supplements, cosmetic, and food & beverage industries.

OUR PRODUCTS

Puremagics is one of the few companies in the world that combines commercial-scale production of pure high-quality raw material and the development and manufacture of a wide range of natural Astaxanthin-based health products.

All of our skin health products are enriched with natural astaxanthin, nature's strongest antioxidant - **6000 times stronger than vitamin C**

THE NEXT GENERATION OF ASTAXANTHIN

Encapsulation of the raw material and its adaptation to the food and beverage industry

1. **Resistant to pasteurization**
2. **Soluble in water**
3. **Significantly higher bioavailability than all competitors**
