

The image features the MIXiii Health-Tech, IL logo on the left, which includes the text 'Led & Organized by IATI'. To its right is the IATI Israel Advanced Technology Industries logo. To the right of the logos is a graphic of a hand holding a glowing brain, with various scientific and medical icons (DNA helix, charts, etc.) floating around it, set against a dark blue background.

Experience The Future of Health-Tech Innovations at [MIXiii Health-Tech.II](#) ,
March 17-18, 2026 @ ICC, Jerusalem, Israel!

MIXiii Health-Tech.II led & organized by Israel Advanced Technology Industries Association (IATI) is Israel's premier Health-Tech and Life Sciences conference and exhibition, bringing together industry experts, researchers, entrepreneurs, start-ups, investors, venture capital funds and the whole ecosystem to network and strengthen Israel's position as a global leader in life sciences and technological innovation, thus contributing to the advancement of Israel's health-tech industry and it's economy as a whole.

MIXiii 2026 program will feature a rich and diverse agenda, including multiple thematic tracks, expert lectures, and panel discussions. Topics will include emergency medicine, tech-bio, med-tech, healthcare venture building, emerging technologies from Israeli academia, innovation in ophthalmology, a startup competition in digital health, and more.

The annual **MIXiii Health-Tech.IL** conference serves as the leading event of Israel's life science, and health-tech and is a key driver of business and professional collaborations, making it the most influential event in advancing life sciences and technology in Israel.
